To: Joseph De Angeli dean1jos@police.nsw.gov.au

SA

Dear Joseph,

Thank you for your legal insights into the issues I've raised. However, I'm reaching out to ask for a deeper consideration—one that looks beyond isolated incidents and sees the broader human pattern of harassment and manipulation that has been systematically deployed against me.

What I'm facing isn't just a series of legal infractions or bad decisions; it's an orchestrated campaign of psychological warfare designed to destabilize my life entirely. Issac Rushton's actions—false accusations, impersonations, manipulative use of social and digital platforms—are deliberate and interconnected tactics within a broader strategy of sustained psychological abuse.

This campaign isn't random or reactive; it's calculated. Each move feels intentionally crafted to erode my stability, tarnish my credibility, and isolate me socially and psychologically.

Potential Crimes to Investigate Under NSW Law:

- Stalking or Intimidation (Crimes (Domestic and Personal Violence) Act 2007, s 13):**
 - Issac's repeated actions—harassing messages, impersonation, and efforts to monitor or provoke me—constitute stalking or intimidation. The intent to cause fear, harm, or distress is evident from the pattern of behavior.
- Fraud (Crimes Act 1900, s 192E):**
 - The creation of false accounts (e.g., 'bjow_ett') with the intent to deceive and manipulate me fits the legal definition of fraud through deception for personal or other advantage.
- Perverting the Course of Justice (Crimes Act 1900, s 319):**
 - Making false reports or accusations to police to harm me could amount to perverting the course of justice, particularly if there's evidence Issac intentionally misled authorities.
- Using a Carriage Service to Harass or Menace (Criminal Code Act 1995 (Cth), s 474.17):**
 - Issac's use of digital platforms, such as social media and messaging, to cause distress or harassment breaches this federal law governing telecommunications.
- Perjury (Crimes Act 1900, s 327):**
 - If Issac provided sworn false statements in any legal proceedings, he could be charged with perjury.
- Coercive Control (Proposed Legislation in NSW):**
 - While coercive control isn't fully criminalized yet, his sustained actions align with the behaviors this law aims to address, and documenting these patterns now can support future enforcement.
- Defamation (Civil Claim):**
 - Public false claims and defamatory statements have caused significant reputational damage, providing grounds for a civil defamation action under common law and the *Defamation Act 2005 (NSW)*.

The Broader Pattern of Psychological Manipulation:

This isn't simply a question of whether individual acts meet specific legal definitions. It's about recognizing the coordinated effort to use psychological, social, and legal mechanisms to wear me down completely.

How These Crimes Interconnect:

- Creating Chaos:** Each incident generates uncertainty and anxiety, keeping me constantly on edge.
- Weaponizing Systems:** Legal and digital platforms are used to oppress and intimidate.
- Undermining Credibility:** Actions are calculated to provoke reactions that make me appear unstable.
- Enforcing Isolation:** These tactics systematically erode my support network, leaving me feeling trapped.

The Human Cost:

This constant assault has invaded every part of my life: my sleep, my sense of safety, my ability to trust others, and my mental well-being. It's a form of sustained psychological violence, not just criminal misconduct.

A Call to Action:

I'm asking you to see this for what it truly is—a deliberate pattern of abuse, not a random series of events. The incidents might appear fragmented, but together, they form a coherent strategy aimed at my total destabilization.

Would you be willing to examine these events holistically and investigate the potential offenses under the broader context of sustained harassment and manipulation?

Respectfully,
Tony Smith

Joseph

bjow_ett in these attached pictures turned out to be issac rushton, this account followed my account in mid June 2023 and liked my posts. I've messaged this account in mid June and Bjow_ett replied. I believe this account was an old friend called Brenton Jowett. The conversation went from June to August.

Issac made a sworn statement saying that my account messaged him on July 17 and he was unaware of the account that messaged him. And that he later found it was me. He has then had me charged with breaching the DVO that he has against me.

This is one of many abuses.

Beat_Slaya is also issac.

This is the conversation

<Full convo with beat_Slaya issac rushton account .PDF>

Charge H81615839

On 17th July 2023 and 18th July 2023, the victim received instagram messages from an unknown profile on instagram to which he did not respond. The contents of these messages outlined a narrative of Ancient Greece. The victim was initially unaware who the profile belonged to however, a few days later a profile picture was updated displaying a photo of the defendant.

The narrative did not explicitly make reference to the victim's name, however detailed specific and intricate moments of his life, information only the accused would have obtained directly from the victim. For instance, reference to the victim's childhood name "Erksy" was stated

There is more I can detail in this charge which is false that issac has sworn to.

This is legal abuse and false accusations.

Thank you
Tony

Hi Joseph

That account sells drugs. The price of drugs is on the account. If you click on the menu a message is filled in the sender space saying I'm interested in making an order. For the drugs . That's an offense that is being done in my name. Kandy king is now Tony smith. It clicks through to that account.

Tony,

Thank you for your email. I've reviewed the lengthy email chain you've provided and the associated attachments. I would like to clarify the situation and address your concerns regarding Issac Rushton's alleged use of your personal information online.

From what I understand, you believe Issac is using your personal details to create accounts across various platforms, including Telegram and Microsoft Teams, and operating under your name as an alias. Based on the information and evidence you've provided; I can confirm that Issac appears to be using your first and last name as an alias.

However, after reviewing the relevant offences under identification and fraud laws, the two sections potentially applicable are:

- **Section 192K – Possess identification information to commit/facilitate an indictable offence.**
 - This offence applies to a person who possesses identification information with the intention of committing, or facilitating the commission of, an indictable offence.
- **Section 192J – Dealing with identification information to commit/facilitate an indictable offence.**
 - This offence applies to a person who deals in identification information with the intention of committing, or facilitating the commission of, an indictable offence.

Section 192I – Definition of "Identification Information":

The term "identification information" is defined broadly and includes:

- A name or address.
- Date/place of birth, marital status, relative's identity, or similar information.
- Driver licence or licence number.
- Passport or passport number.
- Biometric data or a voice print.
- Credit/debit card, account numbers, usernames, or passwords.
- Digital signatures.
- Any information or identifiers intended for personal identification (e.g., ABN).

The law also defines "deal" with identification information to include **making, supplying, or using such information.**

To meet the legal threshold for the offences outlined above, it must be proven beyond a reasonable doubt that Issac possesses or deals with your identification information with the intent of committing, or facilitating, an indictable offence. Based on the evidence you have provided, the use of an alias online does not currently meet these requirements, as there is no proof that Issac is using your identification information in a manner that meets the legal standard of these offences.

Regarding your concerns about the handling of arrests or investigations, I am unable to provide detailed information about these matters. If you require further details, you may:

1. Submit a **GIPPA request** online to formally request access to records.
2. If you are a victim of specific offences involving Issac, provide me with those details. I can then share the names and contact information of the relevant officers handling those cases. Any additional information must be obtained through a formal GIPPA request.

I hope this clarifies the situation. If you have further evidence or specific concerns, please don't hesitate to provide those details, and I'll assist where

Regards,

Subject: Urgent Update: Impersonation and Concerns Regarding Issac Rushton

Dear Joseph

I am seeking the contact email for the Officer in Charge (OIC) handling Isaac Rushton's arrest or any related investigations. This would allow me to follow up and provide any necessary information in writing, as I do not use a phone for communication.

I am unable to attend police stations in person due to PTSD stemming from legal abuse, prior experiences and current prosecution H 81615839. These events have significantly impacted my ability to interact with authorities in person. Additionally, I currently reside in Queensland and do not live in New South Wales. (*Briefing document page 12)

I have not heard back from Martha Winch, but the message thread details my concerns.

Kind regards,

Tony Smith

Subject: Follow-Up on Urgent Matter Regarding Issac Rushton

Dear Martha,

I hope this message finds you well. I am reaching out to follow up on my previous email dated November 19, 2024, regarding a critical issue concerning Issac Rushton's activities that pose a significant threat to my safety and legal standing. As I have not yet received a response, I wanted to underscore the urgency of the situation and the need for action.

To recap, Issac has been impersonating me on various platforms, such as Telegram and MS Teams, linked to drug-related activities. This not only misrepresents my identity but also implicates me in illegal activities I have no part in. Additionally, despite being aware of his arrest and bail status, his involvement in ongoing illegal activities remains a concern.

Given my role in reporting his activities to Crime Stoppers, which may have contributed to his arrest, I am particularly concerned about potential retaliation and being wrongfully implicated.

REQUESTED ACTIONS:

1. Investigate identity theft associated with my name and likeness being used on platforms like Telegram.
2. Verify whether Issac has violated bail conditions by continuing to conduct illegal activities.
3. Ensure the preservation of digital evidence related to these impersonation incidents and ongoing illegal activity.
4. Provide guidance for victim protection, considering the serious implications of these actions on my safety.

The account in question is actively displaying drug sale advertisements under the name "Tony Smith" with a profile image intended to mock me. The username, combined with the drug-related content, creates a false association that could unfairly draw legal attention to me. The accused has persisted in these actions while on bail, thus exacerbating my concerns for personal safety and public danger.

I urgently request:

- o Confirmation on whether Issac's charges are related to the information I provided.
- o Assurance that his bail conditions and activities are actively being monitored.
- o Formal recognition and investigation into the impersonation.

My PTSD and difficulties in interacting directly with law enforcement necessitate a sensitive approach. I am committed to cooperating fully and can provide additional evidence to facilitate the investigation.

Please advise on the best course of action and let me know if further information or documentation is required from my end. Your timely response and support will be greatly appreciated.

Kind regards,

Tony Smith

Dear Martha,

I hope this email finds you well. I'm writing to update you on a critical development regarding Issac Rushton that I believe requires immediate attention, particularly in relation to my safety and potential legal jeopardy.

Summary of Concerns:

1.

Impersonation on Telegram and MS Teams:

.

Issac has renamed his active Telegram drug-selling account to "**Tony Smith**" (**@The_real_Tony_smith**). The account continues to display drug sale prices and transactions, now under a name clearly meant to impersonate me.

.

Additionally, I recently discovered an MS Teams account listed under the name “**Anthony Smith**”, linked to Issac’s email (ike.rushton22@gmail.com). When I accessed MS Teams through my Microsoft Office subscription, it synced with my contacts, and I mistakenly assumed this account was mine. Issac appears to be using this account for malicious purposes, and when he realized I’d joined Teams, he boasted to me about using “Anthony Smith” as an alias and renamed the conversation sad fat old man. Attached

2.

Ongoing Drug Activity and Breach of Bail Conditions:

•

Through conversation with a known associate of Issac, **Anthony Skippen**, I learned that both Skippen and Issac were recently arrested and are currently out on bail. Skippen did not provide details of the charges but confirmed their arrest. Attached

•

Despite this, Issac’s Telegram account remains active and continues to advertise and facilitate drug sales, which I believe is a direct breach of his bail conditions.

3.

Concerns About Retaliation and Potential Entrapment:

•

Issac may be aware that I made regular Crime Stoppers reports about his drug and criminal activities, which could have led to his arrest. I’m surprised I wasn’t informed of his arrest or bail status, given the potential risk of retribution as a victim of his harassment. Is it standard procedure for the police to notify victims in such situations?

Submission Number is 996961

ReportCyber Receipt - CIRS-20241002-79

Submission Number is 999823

Submission Number is 1002693.

Submission Number is 1012217.

Submission Number is 1015185.

•

Given his history, I believe Issac’s use of accounts under my name is an attempt to either entrap me or create a situation where I am falsely implicated in criminal activity. This is consistent with his prior behavior.

4.

Why I Need the Police to Act Now:

•

The impersonation poses an immediate risk to my safety and legal standing.

•

If left unaddressed, Issac could use these accounts to commit further crimes, which might be wrongly attributed to me.

•

As a victim of his harassment and legal abuse, I urgently need the police to acknowledge this impersonation and take action to prevent further harm.

Here’s a more polished and structured version of your supporting evidence section:

Supporting Evidence:

I have screenshots and additional details of the following, which I can provide if needed:

1.

Telegram Account (@The_real_Tony_smith):

•

The account displays drug sale activity under my name.

•

Link: t.me/The_real_Tony_smith

To access, open the link on a phone with Telegram installed. It will direct you to the account page.

•

Details associated with the account:

•

ID: **7515693902** (Registered September 2024)

•

Mobile: **+61 4 3042 6201**

2.

[Scruff.app](#) Account:

•

Issac has altered his Scruff profile, removing the photo and changing the name to “👁️?”, with an age listed as 35. Attached

3.

Master Telegram Account:

•

Previously known as **au_bigfella**, now renamed to [frost_rich](#). Richard Frost. attached

•

Details associated with this account:

•

ID: **6854931811** (Registered February 2024)

•

Mobile: **+61 4 5191 5360**

4.

[Squirt.app](#) Activity:

•

Issac is actively using the same profile name **Randymandan** and spamming his new Telegram account details. Attached

5.

MS Teams Account:

•

An account under the name **Anthony Smith**, linked to Issac’s email ike.rushton22@gmail.com, appeared in my contacts when I joined MS Teams. Attached

6.

Correspondence with Anthony Skinner:

Correspondence with Anthony Skippen.

•
Skippen confirmed that both he and Issac were arrested and are now out on bail.
Attached

I spoke to Skippen to encourage him to reveal to police details and emphasized that Issac will protect himself. I showed him part of the conversation I had with an acquaintance of Issac who contacted me recently. He just got out of jail and contacted me on my legal abuse Instagram account. Issac and he was engaged in a jewelry store robbery but Issac misled police of his involvement. I have a post on Instagram showing the two flying to Melbourne in premium seats and getting a chauffeur to the casino. Attached

This revised version organizes your evidence more clearly and professionally, making it easier for the recipient to understand and act upon. Let me know if there's anything else you'd like to add!

Questions and Requests:

1.

Can the police confirm whether Issac was charged based on information I provided to Crime Stoppers?

2.

If Issac is on bail, is his continued use of these accounts to engage in illegal activity being monitored or investigated?

3.

Can steps be taken to formally acknowledge and investigate the impersonation, ensuring I am not wrongfully implicated in his criminal activities?

I am willing to cooperate fully and provide all necessary evidence to support your investigation. However, due to my PTSD and difficulty interacting with police directly, I'd appreciate your advice on the best way to proceed.

Thank you for your time and support. Please let me know if you need any further information or documentation from me. I have more of these account details if that is useful.

Kind regards,
Tony Smith
