DH

Tony as discussed there is no such thing as a formal report via email. I have not read this except the first sentence.

I am on leave for a month. If you have anything to report please either make an online report, or call or go into a police station.

Thanks Tony

Good Luck

S/Cst Duncan Handley

Dear Senior Constable Handley,

You asked me to bring forward a recent, clear crime where I am the personal victim. Accordingly, I am formally reporting a direct act of stalking and harassment that occurred on **August 5, 2025**.

On this date, two Instagram accounts—"Anthony Hadjakis" and "Humphrey Dinkum"—followed my personal account.

This is not harmless social media activity; it is a deliberate act of intimidation and part of a continuous pattern of harassment. The evidence is as follows:

1. **This is a Threatening Engagement:** The "Anthony Hadjakis" alias is the same account that previously sent me a stream of direct, abusive, and threatening messages.
 - o **Attachment A** contains screenshots of these prior messages, which include threats like "**your life is about to get a lot worse**" and "**you can't hide anymore**". A simple "follow" from an account with this history is a clear act of intimidation.
2. **The Accounts are Linked to the Suspect:** These are not random accounts. Both are explicitly identified in the professional Cybertrace report as being linked to the suspect, Mr. Issac Rushton.
 - o **Attachment B** contains the relevant excerpts from the Cybertrace report confirming the forensic links between these aliases and Mr. Rushton.
3. **This is a New, Documented Act of Stalking:** The action of these specific, known-hostile accounts re-engaging with me constitutes a new and deliberate act of stalking.
 - o **Attachment C** is the screenshot documenting the follow requests from both accounts on **August 5, 2025**.

This fresh contact occurred less than two months after my June 10, 2025 court appearance, which was for charges of harassment instigated by Mr. Rushton—at a time when his own linked accounts were actively threatening me.

This is a clear, recent, and evidence-backed complaint. I am asking for this incident to be formally recorded and investigated as **stalking and harassment via a carriage service**, and for an official **Event Number** to be provided.

Regards,
Anthony Smith

The "Rosetta Stone" Phone Number ([REDACTED]): This number is now definitively linked through multiple sources to:

The suspect's full name,

"Mr Issac William Rushton", in a WhatsApp conversation.

The Telegram aliases

@Au_BigFella and @frost_rich.

The recovery phone number for the

[REDACTED] Google account.

A PayPal account linked to the

ant.hadjakis alias.

Recent and Ongoing Criminal Activity:

The "Tony Smith" /

@frost_rich Telegram account was documented offering to sell "gear" (drugs) on July 24, 2025.

On

August 5, 2025, you received follow requests from the known stalking accounts ant.hadjakis and humphreydinkum.

Direct Link of "Mr Officer" Persona: The Cybertrace report links the email [REDACTED] to a Microsoft Account in the name "mr officer", with a recovery email pointing directly to Issac Rushton.

Direct Harassment and Threats via the ant.hadjakis Alias

The file Ant.hadjakis convo (1).pdf contains a screenshot of a Facebook Messenger conversation. It is not just a record of stalking; it is a log of direct, targeted, and severe harassment.

Abusive Content: The alias sends a stream of vitriolic messages intended to cause psychological distress.

Direct Threats: The conversation includes clear threats, such as "And your life is about to get a lot worse".

Taunting and Degradation: It also contains taunts like "You can't hide anymore" and

"We get together and laugh at your sad old wrinkly face".

Significance: This provides powerful, documented proof of harassment and intimidation via a carriage service. It moves beyond the suspect simply following your accounts and into active, malicious engagement.

2. New Linked Phone Number and Taunting MS Teams Message

The file MSTEams [REDACTED] 19:11:25 a.pdf introduces another piece to the puzzle.

New Phone Number: It documents the phone number [REDACTED]

Link to Suspect: The screenshots link this number to a business profile for "Parker Rushton". The Cybertrace report previously linked the domain

parkerrushton.com.au to Issac Rushton's ABN.

Harassment: A message from this number on MS Teams, dated November 19, 2024, taunts you about your legal situation, stating: "Hi Anthony. What were the charges. Might need to go into hiding like I have these last years".

On 8 Aug 2025, at 18:34, Duncan Handley <hand2dun@police.nsw.gov.au> wrote:

Tony. You are fixated on past issues.

My advice remains the same.

You need to report matters to police in person, or you need to make an online report (for some matters only) on the Community Portal on the NSW Police website.

Emails to me will not get you anywhere.

But when I say this I fully understand and sympathise with the "circular run around" you describe. Reporting the same issues over and over will only frustrate you and is an exercise in futility. Clearly QLD Police are aware that you have already reported these matters, they will not take a report a second time re the same matters.

If you have a new incident then you should be able to go directly to QLD Police and make a report, they will pass it to us, to evaluate and possibly start an investigation if it warrants it.

In a nutshell I suggest dropping old matters, and only making a police report if a new crime occurs.

Further emails to me will likely get no response, unless they are brief and ask for help or advice in some way that I can reasonably assist you with.

Otherwise this is just another "circular run around" wasting both our time.

I wish you well.

Subject: Your correspondence - My History of Attempted Reporting via Online and Local Police Channels

External Email

CAUTION: This email originated from outside of NSW Police Force. Be cautious with attachments, links, and requests unless you were expecting the email, recognise the sender, and trust the content is safe.

Dear Senior Constable Handley,

Thank you for your recent email dated August 5, 2025, and your continued offer to discuss my matters. I appreciate your advice regarding making an online report if I am "getting nowhere with QLD Police," and your emphasis on reporting "new matters" through official channels.

However, I must respectfully convey my profound disappointment, as your suggestions reflect the very challenges I have faced for years. I have consistently attempted to report through precisely these channels – local Queensland police and online portals – only to have my reports rejected or dismissed, forcing me back into a "circular runaround" where neither jurisdiction nor reporting method takes action. This systemic issue is why I rely on written communication as the only viable and reliable method for me to ensure an accurate and undeniable record, particularly given my diagnosed PTSD and communication difficulties under pressure.

Let me provide specific instances where your suggested reporting avenues have unfortunately led to dead ends:

* ****Repeated Rejection by Local Queensland Police:****

* I have attended my local Queensland police station on multiple occasions, attempting to report Issac Rushton's crimes in NSW.
* ****Outcome:**** Each time, I was informed that Queensland police could not investigate matters occurring in NSW, and their inquiries to Kings Cross PAC received no cooperation. Sergeant Jake Lacy of Redcliffe Station formally confirmed this on ****January 29, 2025****, stating *****QLD police are unable to investigate matters occurring in NSW by RUSHTON*****.

* When I filed a new Crime Stoppers report on ****January 28, 2025****, concerning Issac impersonating police officers and selling drugs, a Crime Stoppers Analyst advised that *****all offences against the person must be reported in person at a police station*****.

* ****Outcome:**** When I attempted to follow this advice, Redcliffe Station informed me they could not book a specific time for me to attend and I would have to wait for an officer to be available.

* ****Consistent Rejection by Online Portals (ReportCyber, Crime Stoppers):****

* I submitted a report to ReportCyber on ****October 3, 2024****, regarding Issac Rushton's threats.

* ****Outcome:**** ReportCyber responded by instructing me to attend my local police station.

* On ****October 4, 2024****, I received a direct email from NSW Police stating my matter *****does not fit ReportCyber guidelines***** and that "this email will end correspondence with you in relation to this report".

* My Crime Stoppers report (CIRS-20241002-79) concerning Issac's cybercrimes and drug dealing, submitted on ****October 2, 2024****, was *****not referred to local Police for further investigation***** because it was categorized as a "Domestic Violence situation" which falls outside current ReportCyber guidelines.

* A subsequent ReportCyber submission (CIRS-20241218-5) on **December 18, 2024**, was also rejected for the same reason, being classified as a "Domestic Violence situation" requiring in-person reporting.

* Notably, a Crime Stoppers report (CIRS-20241121-242) from **November 21, 2024**, was explicitly stated by QLD Police to have ***not been sent to QPS for investigation and may sit with NSW police as the offences are occurring there,*** creating a gap where neither force takes action.

* **Customer Assistance Unit Redirection:**

* My inquiries to the Customer Assistance Unit, including one on **November 27, 2024**, about lack of response from Martha Winch and my inability to use a phone, were met with the reply that they ***are unable to provide updates on existing events*** and that stalking needs to be reported "in person".

* This is not a new issue; as early as **April 18, 2022**, the Customer Assistance Unit informed me that complaints of abuse, fraud, theft, and stalking "need to be reported in person at a Police Station" and could not be taken online. This instruction contradicted prior advice from Day Street Station (December 2021) to use the online portal for digital reports.

Therefore, your advice to use online reports or local police stations is precisely what I have attempted, repeatedly, and repeatedly found ineffective due to systemic policies that deem my specific situation (often classified as "domestic violence") unsuitable for online reporting, or jurisdictional barriers that prevent cross-border investigation.

Given this documented history, my use of written communication is a necessity, not a choice. I have provided overwhelming evidence, including the Cybertrace report, that already meets your stated criteria of "a clear crime, with clear evidence as to who committed it, ideally a recent crime that has not been previously reported," with me as the "personal victim". My email detailed ongoing impersonation, the malicious "swatting" incident, and the submission of forged bank statements, all of which are recent and directly impact me.

This refusal to engage with facts extends to my personal circumstances. Despite me providing a QLD address for years, your command continues to search for me at my former Sydney residence. You conducted a welfare check on **February 25, 2025**, at my old address, and an AVO compliance check was attempted there last year, despite me having left NSW in **November 2022**. The criminal conduct that I am reporting is not historical, it is ongoing. The "Anthony Hadjakis" alias, which taunted me with threats before my last prosecution, continues to stalk my accounts. Mr. Rushton continues to use my name on Telegram to sell drugs.

I am available to discuss these specific points and the evidence in detail. I remain ready to formally present the comprehensive evidence I possess.

Kind regards,

Tony Smith

Subject: Your correspondence - A formal response regarding systemic issues and the necessity of written communication Dear

External Email

CAUTION: This email originated from outside of NSW Police Force. Be cautious with attachments, links, and requests unless you were expecting the email, recognise the sender, and trust the content is safe.

Dear Senior Constable Handley,

Thank you for your email. I need to be respectfully direct in return. Your response treats my communications as isolated incidents and overlooks a documented, multi-year history with Kings Cross Police that is essential to understanding why I am communicating in this manner.

I am not simply "raising fresh issues via email." I am documenting a continuous pattern of serious, un-investigated crime and a systemic failure by your command to address it.

Regarding your offer to talk and the method of reporting:

You are correct that you offered to talk on the phone. I declined because, due to diagnosed PTSD stemming directly from my history with this matter, phone calls are not a viable or reliable method of communication for me. I experience significant voice and memory issues under pressure; I often cannot recall what was said afterwards, and the conversation becomes a failure. This is personally embarrassing, but it is a medical reality. Written communication is the only way I can ensure my report is accurate, comprehensive, and that a clear, undeniable record of our interaction exists.

Furthermore, your advice to "come into a police station" is not a practical solution. I live in Queensland. I have attended my local QLD police station on several occasions. The officers there have been sympathetic but have told me directly that their inquiries to NSW Police, specifically Kings Cross PAC, receive no cooperation and no response. They cannot investigate crimes or individuals in NSW themselves. I am being sent back and forth between two jurisdictions, with neither taking action.

This is not about matters "already dealt with by the courts":

Your statement that I must report a "fresh crime not already dealt with by the courts" is the most concerning part of your email, as it demonstrates a fundamental misunderstanding of this case.

The central issue is that the crimes committed by Issac Rushton have **never** been dealt with by a NSW court. He has never faced a single charge in NSW for his actions, despite dozens of NCAT appearances for other matters.

The "fresh crimes" I have repeatedly tried to report to your command include:

1. **Forgery and Fraud (June 2025):** The submission of fraudulent bank statements into a court of law. This is not a "closed matter"; it is a criminal complaint that was dismissed by your command on the false premise of "nil evidence" when your Commander had been provided with a forensic breakdown of the forgery.
2. **Malicious "Swatting" (June 2025):** A dangerous false report made to your command that resulted in a mental health welfare check on me in another state. This is a serious misuse of police resources that you have refused to investigate.
3. **Ongoing Stalking and Harassment:** Just last week, two of Mr. Rushton's known accounts, including the "Anthony Hadjakis" alias, sent follow requests to my Instagram. This is the same alias that sent me threatening and abusive messages before I was even officially notified of the last prosecution against me. This is not history; it is happening now.

The history of unequal treatment:

For years, every report I have made against Mr. Rushton—for stalking, for hacking, for identity theft, for drug dealing, for fraud—has been dismissed by Kings Cross Police. In contrast, I have been prosecuted across state lines based on his demonstrably false statements.

The charge against me on June 10 was dismissed after Mr. Rushton failed to appear in court properly. He knew I had obtained the full, original Instagram activity logs that would prove, unequivocally, that his sworn statement was perjury. That was on MS Teams (see Cybertrace report for both accounts) when he was pretending to be "Mr Officer" and another account of his "Anthony Smith" bragging about the charges I was soon to face in court. I showed him the activity statements that proved that his sworn statement was false. He did not show up because he knew he would be exposed. He again faces no penalty for this. Insuring this will all happen again. This is the reality of the situation. I am being systematically harassed by an individual who uses the police and the courts as a weapon, and the police service that should be investigating his crimes is instead prosecuting me for exposing them. You ask for evidence, yet when I provide it—the Cybertrace report, IP addresses linking Mr. Rushton to drug-selling accounts impersonating me, forged bank statements—your command refuses to act. You won't even subpoena an IP address.

The psychological abuse from this situation is relentless. I receive messages telling me I am a "loser who no one cares about," that my "life is about to get a lot worse," and that I am a "bad person" who "can't hide anymore." This is the context in which I am forced to operate.

I am not sending allegations without evidence. I am sending evidence that is being wilfully ignored. I am writing to you because it is the only way I can safely and accurately communicate.

Sincerely,
Tony Smith

On 3 Aug 2025, at 11:01, Duncan Handley <hand2dun@police.nsw.gov.au> wrote:

Tony, I get that this is upsetting for you, or worse, but let me be respectfully direct with you.

I offered to talk further with you, and you declined, but instead you raised fresh issues via email.

NSW Police do not take reports via email.

All I can tell you is that the matters I was asked to look at, that you raised previously are closed, at least for the present. No

email correspondence, with allegations but no evidence, is going to change this.

If there is any evidence of a crime, specifically a fresh crime not already dealt with by the courts, then please, please, either make an online report via our website or come into a police station.

Sincerely

S/Cst Duncan Handley

Subject: FOLLOW-UP: False 000 Report, Cybertrace Evidence of Serious Crime

External Email

CAUTION: This email originated from outside of NSW Police Force. Be cautious with attachments, links, and requests unless you were expecting the email, recognise the sender, and trust the content is safe.

Dear Senior Constable Handley,

I am writing to you again as I have not received a response to my email sent over a month ago, on 26 June 2025. Given the serious and time-sensitive nature of the issues I raised, the complete lack of acknowledgement is deeply concerning. I am left to feel that the extensive evidence I have provided is being deliberately ignored or buried.

My previous email detailed two critical issues requiring immediate police action:

1. **A Malicious False Report to Police ("Swatting"):** On June 26, 2025, I was targeted by a dangerous "swatting" incident after Kings Cross Police made a referral to the QLD Mental Health Acute Care Team based on what I assert is a malicious false report. I requested your assistance to urgently identify the source of this false report within the NSW Police systems (CAD or COPS). I have heard nothing.
●
●
●
●
2. **Overwhelming Evidence of Serious, Ongoing Crime:** I have provided your command with extensive, documented evidence of criminal conduct by Issac Rushton, including from a professional Cybertrace report.
●

The rejection of these matters is inexplicable, as senior officers at Kings Cross have been in receipt of this evidence for a significant time.

- **Prior Knowledge of Impersonation and Drug Dealing:** I have a detailed email record with **Plain Clothes Senior Constable Joseph De Angeli** from **November 2024** where I provided evidence of Issac Rushton impersonating me on Telegram to facilitate drug sales.
●
●
●
- **Prior Knowledge of Forged Bank Statements:** On **10 June 2025**, the same day the formal report was made, I sent an email directly to **Commander David El-Badawi** with a forensic breakdown of the manipulated ING Bank statements submitted by Issac Rushton in court.
●
●
●

Given that the highest levels of your command were personally informed of these specific facts, any subsequent claim that there was "nil evidence" is demonstrably false. The evidence was and is in your possession. Please be advised that I have compiled a comprehensive record detailing every instance where official reasoning for inaction by multiple officers has been contradicted by documented evidence. This record is prepared for submission to external oversight bodies should NSW Police continue to fail to act.

I require an immediate and substantive response to this email. I demand to know what steps have been taken to investigate Issac Rushton's Criminal behaviour towards me. Furthermore, I expect confirmation that the extensive evidence against Issac Rushton is being formally investigated.

If I do not receive a response outlining your intended course of action within the next 15 business days, I will be left with no alternative but to escalate this matter to the Law Enforcement Conduct Commission (LECC)

I trust this will not be necessary.

Warm regards,

Tony Smith Scarborough QLD

On 26 Jun 2025, at 22:01, Tony Smith <[REDACTED]> wrote:

TO: 40779@police.nsw.gov.au

Dear Senior Constable Handley,

Thank you for your reply and your offer to discuss this further – I genuinely appreciate that. I have a more immediate request first.

On 26 June 2025 at 4:53pm, I was contacted at my home in Queensland by the Caboolture Mental Health Acute Care Team. They told me that Kings Cross Police had made a referral claiming I had called or made calls to 000 saying I was suicidal and suggesting I might throw myself under a train.

I never made such a call or threat. I live in QLD, and have not worked as a train driver since I was first prosecuted in 2022, and did not contact emergency services or speak about trains. I believe this incident may have been a mental health “swatting” — where someone makes a false report to cause a police or health crisis response, possibly in an attempt to harass or destabilise me.

Given the referral originated from Kings Cross Police, I believe the call or report must have been received in your area. As call’s to 000 are routed from the area they are received in. I’d like to ask if you could assist in identifying:

- Who made the report?
- Was there a 000 call involved as I was told by the acute care team?
- If so, from what number or location was it made and what was said?

I believe this may have been done by Issac Rushton, who is familiar with my past employment as a train driver, lives in that area and has a documented history of:

- Abusing online services,
- Impersonating me and others,
- Submitting false or misleading information to police and courts.

The content of the referral — specifically mentioning trains — strongly suggests someone with detailed personal knowledge of my past.

I’m asking if you could take a look at what you can see internally:

- CAD or COPS entries,
- Referrals made from Kings Cross to QLD Health,
- Or any 000 call made in my name around 25–26 June.

If the referral came from a known person, or the number traces back to Issac or a digital hoax.

In reply to your email, you asked if there was one clear, recent crime where I am personally the victim, with definitive evidence. **Yes, there is.** It primarily concerns **Issac Rushton making repeated false accusations and false police reports against me, which directly led to my prosecution in the Local Court on June 10th.** This pattern of false statements has severely impacted me.

Leading to that June 10th court appearance, Mr. Rushton made statements that I can definitively prove were untrue. I had original documents prepared and witnesses present in court that day not only to corroborate my account but also to provide further examples of similar false statements Issac has consistently used to victimise me and others, both to police and in various court proceedings.

The Cybertrace report confirmed the two accounts that followed, liked and messaged me on my instagram, were bait accounts impersonating my friend Brenton Jowett and operated by Issac Rushton to entrap me.

"The Client identified eleven Instagram accounts as relevant to the investigation, two of which were considered by the Client as more salient to than the rest, being @beat_slaya and @bjow_ett.

@beat_slaya

www.instagram.com/beat_slaya

Technical investigations confirmed that this account is linked to a partially revealed email address of [REDACTED]@gmail.com, which is noted to align with the format of the email address [REDACTED].

Searches of international investigative databases confirmed that the email address of [REDACTED] is linked to an Instagram account.

Analysis of this account identified that its profile picture matches that of the Suspect’s Facebook profile in the name of Ike Rush. The account’s bio states:

"Ike Rush

@beat_slaya

Me"

The account is private and was created in May 2022. It has published eight posts, has 100 followers, and is following 180 accounts.

Although not confirmed, it was considered likely that this account is operated by the Suspect.

@bjow_ett

www.instagram.com/bjow_ett

Technical investigations confirmed that this account is linked to a partially revealed email address of [REDACTED]@gmail.com, which is noted to align with the format of the email address [REDACTED]."

In the brief of evidence presented for my prosecution June 10 Issac swore

"On the 4th of September 2023 I was asleep in my bed. When I woke up I observed that I had a missed phone call on my mobile phone from Anthony SMITH. Anthony had called me at 2:17 am. He did not leave a message on my phone. I had Anthony's phone number saved in my phone as Anthony SMITH, his phone number is 0433 813 180. I did not give Anthony permission to call me or contact me. This is his main phone number which he had throughout

the duration of our relationship."

That phone number 0433813180 was canceled by me 25th August 2023 due to Issac bait calling. I lived without a phone number for more than a year.

<brief call records 0433813180.pdf>

<optus last bill august 2023 [REDACTED] _P_20230908.pdf>

This pattern of deception extends to other legal matters. For instance, in an ongoing case involving Mr. Tom Mellor as a creditor against Issac Rushton, Mr. Rushton produced **ING bank statements** as evidence. Analysis of these statements (which were provided by Issac in a court context) reveals **clear and undeniable evidence of digital alteration and fabrication**. This includes:

- **Repeated pages** within the statements (e.g., a page labelled "Page 7 of 12" also appearing as "Page 8 of 12").
 - **Jobseeker Payment entries with reused receipt numbers (e.g., 117774, 113544, 117245), erratic spacing (4 to 14 days), and shifting amounts**, which are inconsistent with genuine government disbursements.
- **Specific transactions** such as the "SWOOP - Visa Purchase" transaction on 18/10/2024, which aligns with the Cyberlink report recommendation-
"It is recommended that a Forensic Data Request be made of Swoop and Anycast Holdings with regard to Anycast Global Backbone and for information pertaining to the specific user of IP address [REDACTED] at 11.04 AM (AEST) in Sydney on 30 April 2025"
- "It is particularly critical that authorities investigate the matter of the user linked to this IP address who has used Telegram to promote the sale of narcotics using the name of the Client."

Of importance, it is noted that the Microsoft account associated with the Suspect's email address, [REDACTED], is linked to an account name of Anthony Smith, providing evidence that he is using the Client's identity."

While these particular ING statements and their analysis originate from Tom Mellor's case, they serve as a compelling demonstration of Issac Rushton's willingness to create and use fraudulent documents to mislead official proceedings – a direct reflection of the kind of false statements he has made to police about me. Obtaining the genuine ING bank statements via subpoena in Tom's case will provide incontrovertible proof of this document fraud.

Beyond these specific instances of false statements and document fraud, the **Cybertrace Report (Ref: [Insert Cybertrace Report Reference, e.g., 2025-4663])** provides extensive evidence linking Issac Rushton to a broader pattern of serious criminal behaviour. This includes:

- **Impersonation and harassment** directly impacting me.
- Attempts to acquire **ANZ bank statement formats for "dodgy stuff"**.
- Operation of Telegram accounts (e.g., @the_real_tony_smith, @frost_rich) advertising and facilitating the **sale of illicit drugs** (cocaine, heroin, methamphetamines, cannabis, ketamine) in Kings Cross/Sydney areas.
- Discussions revealing possession of **hacking software** and advice to "lie to banks" to obscure identities.

The identities that the Cybertrace report tied to Issac are directly integral to the false accusations and subsequent prosecution I faced on June 10th. The report was not a fishing exercise; it established direct links to the accounts responsible for stalking, harassment, and other illicit activities. While the report had limitations due to time and cost, I possess complete historical packages of these Telegram groups, including full public histories and member lists, which provide further evidence of Issac's involvement in bank fraud, credit card fraud, identity document production and sale, and ongoing harassment of myself and others in the Kings Cross/Sydney areas. And the operation of a paid drug injection service running out of public housing with a registered nurse to inject Issac's drug buyers onsite.

The cumulative evidence points to Issac Rushton's consistent use of false statements to police and courts, and extensive fraudulent activities. This has caused significant personal distress and legal burden.

I am prepared to provide you with all relevant documentation for your review immediately, including the detailed analysis of the altered bank statements from Tom Mellor's case, the full Cybertrace Report, and the additional Telegram group evidence.

Cybertrace Summary

"the Subject presents with patterns of impersonating people with whom he has had conflict. With likely engagement in the dark web, as a trafficker of illicit substances, fraud and other crimes, such impersonation might serve the dual function of avenging said conflicts, and carrying out illicit activity with impunity. It is therefore vital that law enforcement agencies take action to bring due consequences to bear on the offender, so that he ceases this behaviour."

I respectfully request an opportunity to formally present this evidence, so that the police can re-examine Issac Rushton's past statements and actions, and pursue appropriate charges against him for these serious criminal offences.

Thanks again for your time, Constable Handley

Warm regards,

Anthony Smith
