Subject: URGENT: Queensland Sovereignty and Resident Safety — NSW
Police Weaponised Queensland Emergency Services Against a
Political Complainant

Date: 9 Mar 2026 at 09:50:11

Dear Premier Crisafulli,

I write to you because what I am about to describe is a matter of Queensland's sovereign capacity to protect its own residents from being targeted by interstate law enforcement acting outside their jurisdiction and in retaliation for lawful political complaints.

I am a Queensland resident. On 26 June 2025 I was subjected to a mental health examination, not because I was in danger, but because I had complained about NSW Police to a Federal Minister the day before. I have the officer's written admission to prove it.

The facts:

A NSW Police officer from Kings Cross Police Area Command contacted the Redcliffe-Caboolture Mental Health Acute Care Team on 26 June 2025. He falsely claimed I had called Triple Zero threatening to jump under a train. He falsely told Queensland Health that a past hospital visit for a colonoscopy was a psychiatric admission. He did this to ensure your state's emergency resources mental health clinicians were deployed to respond under the

highest-risk categorisation possible.

NSW Police's own government records (GIPA Ref: 0834658) confirm the Triple Zero call he cited does not exist.

The day after the intervention, the same officer emailed Queensland Health to ask for the outcome. He wrote:

"The reason why I ask is the gentleman, as of yesterday, has made further complaints to a Federal Ministers Office and I need to respond to them."

That email is now a public government record, obtained via RTI release JIAU25/13749 from Queensland Health.

The implications for Queensland:

A sworn officer of another state fabricated a mental health emergency to deploy Queensland's emergency resources against a Queensland resident — not to protect him, but to surveil him and retaliate for a lawful democratic act. Your clinical staff, your police, and your taxpayer-funded emergency infrastructure were weaponised by NSW to silence a complainant residing under your government's protection.

This is not a NSW Police internal matter. It occurred on Queensland soil. It consumed Queensland resources. It was directed at a Queensland resident.

And it was done to suppress accountability for documented misconduct — including an 18-month malicious prosecution that collapsed in court on 10 June 2025 when a NSW Magistrate dismissed all charges.

I am formally requesting:

That your office direct the Crime and Corruption Commission to investigate whether Queensland emergency services were improperly weaponised by

interstate police through fabricated grounds;

That Queensland formally raise a state-level complaint with the NSW Government and the NSW Law Enforcement Conduct Commission regarding the misuse of Queensland Health's emergency referral framework by NSW Police;

That your government consider legislative or inter-governmental agreement reforms to prevent Queensland residents from being targeted via interstate misuse of welfare referral protocols without jurisdictional authority or oversight;

That your office ensure I am not subject to further cross-border retaliation while these matters are under investigation.

The full evidence brief — including the RTI release, the NSW GIPA denial, Cybertrace forensic intelligence, court outcomes, and a complete timeline — is available on your request. I attach the core documents.

A Queensland resident was raided by proxy for complaining about police. That happened here. Your government has both the standing and the responsibility to respond.

Yours sincerely,

Anthony Lawrence Smith
